Mr. T. J. Hatcher is much better this week. He was much worse than was generally known, but he said nothing to his friends about it.  
Miss Mary Welch left last Tuesday for an extended visit to her brothers, Drs. Geo. E. and H. C. Welch, located at Palatka and Welaika, Fla.—Nicholasville Journal.

What pleasure is there in life with a headache, constipation and biliousness? Thousands experience them who could become perfectly healthy by using DeWitt's Little Early Risers, the famous little pills. Stomach's Drug Store.

### LEAF.

Mrs. Manerva and Bettie Pollins went to Richmond this week on a visit to relatives.  
D. C. Pullins is overhauling his grist mill and will be ready for grinding in a short time.  
From the number of tobacco beds that are being burned, a large crop of the flaky weed will be raised in this section.  
A horse fell down with W. B. Adams and threw him over its head and he was considerably hurt and has been suffering a great deal. But the doctor thinks he is not seriously hurt.  
Our clever merchants, the Lackey Brothers, of Paint Lick, have sold their stock of goods to Sam Joseph and R. L. Jennings, of Lancaster. It is a good place for business and the gentlemen have made a good investment.  
Your correspondents name sake, Batler Adams, rode a cow forty miles bare back. His father sent him to Laurel county after the cow and she would not drive and the little fellow bounced on her back and rode her through. The Lancaster correspondent for the Interior Journal is about right, you cant down a Butler.  
There are three little things which do more work than any other three little things created—they are the ant, the bee and DeWitt's Little Early Risers, the last being the famous little pills for stomach and liver troubles. Stomach's Drug Store.  
The Rosebud Society.  
THE CENTRAL RECORD kindly gave space in a recent issue to a poem reprinted from the Franklin Educator of some years ago. I sent a copy of the paper to Mrs. W. A. Yantis, now living in Parosoul, Arkansas, who is former principal of the Rosebuds, supplies the blanks not filled out in the first article.  
The roll-call as embodied in the poem reads thus: Lida Jennings, Lizzie Jennings, Abbie Yantis, Frank Yantis, Nannie Grant, Fleece Cook, Charlie White, Willie Cooke, Nellie Marrs; Lettie Carson, Mollie Hicks, Liza Selvidge, Julia Chairs, Maggie Curry, Addie Folger, George Potts, Allie Dunn, Mamie Olds, Napoleon Price, Annie Elkin and Mary Curry.  
Of these Rosebuds death has removed Lida, Lizzie, Nannie, Lettie and Julia and perhaps others not known to the writer.

### FARM AND STOCK NOTES.

There are 9,003,060 acres of original forests in West Virginia.  
The ruling price for dogs in the Klondike is \$250.  
There are eleven stallions and six geldings in the 295 pacing list.  
The Journal says fat cattle are in demand in Jessamine.  
O. T. Layton bought at Stan'd court Monday 29 heifers at \$3.45.  
E. T. Minor sold to Dave Prewitt, of Boyle, 18 shoats at 3 cents.  
B. F. Robinson bought of J. B. Sanders, 100 lbs. shoats at \$3.10.  
C. W. Anderson bought of Jno. Collier a small bunch of shoats at 3c.  
W. S. Beazley bought of Lincoln Co. parties 60 shoats averaging 86 lbs. at \$1.45.  
Robinson & Morgan shipped to Cincinnati market a load of 160 hogs averaging 125 lbs.  
C. W. Anderson sold to R. P. Robinson, 20 shoats averaging 90 lbs. at \$3.10 per hundred.  
W. McC. Johnson, bought at Stan'd court Monday, a bunch of calves at \$2.00 per head.  
Cole Gully bought 23 head of cattle from Siler at \$3.45 and 13 head from Swinebrood at \$15.  
J. F. Ware has sold 100 lambs to J. C. Johnson for 27th of July delivery at 5c.—Harrodsburg Democrat.  
Col. W. S. and R. A. Beazley sold to Simeon Weil, of Lexington, for consumption there, a load of heavy hogs, averaging 211 lbs. at \$3.4 cents.  
Your turkeys for breeding purposes should be well cared for this winter and you will be repaid when you sell your next flock of birds.  
The latest in fruits is a Maryland peach without any fuzz, and the grower says that in another year he will raise peaches with a skin that can be removed like the peel of an orange.  
The value of all the live stock in the country on January 1, 1897, was estimated at \$1,886,939,000. On January 1, 1898, it was estimated at \$2,037,012,000, showing an increase in value in one year of \$150,073,000.  
It is announced that James A. Murphy will take Star Pointer and Guineette (one of the most promising candidates for record honors next season) to the Continent next fall and give Europeans a view of a high-class side-wheeler.  
In case of scours, in a suckling foal stir a pint of wheat flour into a half pail of water and give it to the mare to drink; inside of 48 hours the colt will probably be all right. Treat nearly all ails of the suckling colt through the mother's milk.—Ex.  
Mr. Dalton, of Lincoln, bought of A. B. Estridge, of Paint Lick, a bunch of 18 yearling steers at \$3.75 per hundred.  
Messrs. Griggs, of Madison, passed through this week with a bunch of mixed cattle they bought in the mountains.  
While this is the era of invention, it is but the beginning of better things. The day is not far distant when the machine for cutting fodder and ear corn and putting it into any condition the farmer may desire will go from farm to farm just as threshing machines now do.  
The Harrodsburg Democrat reports the sale of a bunch of hogs at \$3.15, a pair of mules \$105, twenty hogs at 3 cents, 100 lambs for July delivery at 5 cents, bunch two-year-old steers at \$3.40 cwt, a lot of dry cows at 3 cents, 15,000 pounds white burley tobacco delivered in Versailles at \$9.50.  
If oats are fed to horses on the farm it is worse than useless expense to thresh them. They make a better and more wholesome feed if stalk and all is run through a cutting box. The waste will be generally very small. If mixed in with a bran mash there will be no waste at all.  
The Richmond Climax says: "There is a better outlook for mules in this section, prices are better than for some time. J. R. Norris, of Maroa, Illinois, is here buying a lot of good ones for the Illinois market. He has purchased a number at prices ranging from \$50 to \$115.  
Charles Griggs, of College Hill, sold to Norris & Curtis one extra large mule at \$115. Few months ago that amount of money would have purchased a pair of fair grade mules. Stock raisers are feeling better over the outlook and growing prices.  
LINCOLN NOTES—Dr. C. Fowler sold to J. H. Baughman & Co., 400 bushels of wheat at 90c. Mark Hardin bought of Kindrick Alexra a bunch of 110 lb. shoats at 2.34c. G. A. Swinebrood sold to various parties yesterday 50 stock cattle at 3.12 to 4.14c. T. J. Culton sold to J. C. Hays nine heifers and two steers at \$13.10. J. C. Lynn sold to John A. Wood 64 sheep at \$5. O. T. Layton bought of G. A. Siler 29 heifers at 3.4c.—Interior Journal.  
The Stan'd Journal says a big crowd attended county court Monday and there were between 500 and 600 cattle on the market. There was considerable demand for good cattle, but they were not as high as they were January court, the highest price realized Monday being about 4.12c. The ruling price for steers was 4.12c, heifers 3.14 to 3.34 and calves \$9 to \$17. Butcher stuff was slow at 2 to 3c. Horses and mules were dull at any price.  
A cholera-proof hog of big-bone Berkshire stock, which was brought to Tennessee from abroad before the war, died near Fulton, in that State, age 33 years. For 25 years the hog had not been sick, but latterly it had been toothless, and its owner had the fool for it boiled. The profits of its progeny has paid for a farm, and its owner buried it on his place and set up memorial stones to mark the grave.  
There is an encouraging increase in the exports of corn from the United States the past few years. Here are the figures: In 1891 the exports amounted to only 31,000,000 bushels; in 1892, 77,000,000 bushels; in 1893 57,000,000 bushels; in 1894, 47,000,000 bushels; in 1895, 61,000,000 bushels; in 1896, 116,000,000 bushels; 1897, 186,000,000 bushels. The exports for the present year will no doubt be still larger. The increase is due in good part to the greater use of meal as food. Foreigners are at last beginning to learn the value of this diet.  
"I have traveled north, south, east and west for cattle," said a leading trader to the Glasgow Times, and I tell you they are not in the country, and not even money can find them. Even the calves are bought up, and at big prices at that. My prediction is that cattle will go skyhigh in the next year or two, and I would not be at all surprised to see the present prices on the Louisville market doubled in the next six months. The whole country is on the verge of a beef-famine, and it will be on the public be ore a great many know it."  
Getting Serious.  
There are now twenty-nine cases of small-pox in Middleborough and three at Mingo mines. Mingo mines have been quarantined, no one being allowed to pass except the mail carrier. Men with Wincchesters have been placed on top of Cumberland Mountains by Virginians to keep all Middleborough people out of Lee county. All the schools are closed and all the doors of the saloons have been locked. No loafing is allowed in the post-office, depot or other public places, and citizens are not allowed to stop on the streets, but are compelled to move on. It is said that merchants and others who depend on the country people for their vegetables, etc., are much alarmed, as none of the natives will come to town while the disease rages. Nearly every citizen has been vaccinated, and other methods of precaution have been taken to stop the spread of the disease.  
The state board of health has sent out circulars, part of which is as follows:  
This Board feels that it is its duty to warn the people that prompt action may prevent its further spread in this State. Fortunately prevention is as certain and safe as it is cheap and easy. Vaccination and re-vaccination, properly done, with reliable virus, is a certain preventive and is entirely free from danger. This is the conclusion of the health officers of the world after years of patient investigations, and is now an accepted truth in preventive medicine. Notwithstanding these facts, about one third of the people of Kentucky have never availed themselves of this protection. Our people

### Baby's Coming

means pain, danger and possible death for some wives. For others it means practically no discomfort at all. There is no reason why childbirth should be a period of pain and dread. Several months before a woman becomes a mother she should prepare herself for the critical ordeal. There is a preparation made which is intended for this purpose alone. The name of this wonderful preparation is **Mother's Friend.** It is a liniment to be applied externally. It relaxes the muscles and relieves the tension, gives elasticity to every organ concerned in childbirth, and takes away all danger and nearly all suffering. Best results follow if the remedy is used during the whole period of pregnancy. It is the only remedy of the kind in the world that is endorsed by physicians. \$1 per bottle at all drug stores or sent by mail on receipt of price. FREE BOOKS containing invaluable information for all women, will be sent to any address upon application to The Bradford Regulator Co., Atlanta, Ga.

should not wait for orders from boards of health in the presence of an epidemic to force them to an evident duty. Every citizen should see to it that not only himself but everyone for whom he is responsible is vaccinated at once. No child should be admitted to any public or private school who has not been vaccinated, and all factors of roads and mines should make the same requirement. This is especially important in view of the threatened danger. The operation should be done by a competent physician, under proper aseptic precautions, and he should see the person vaccinated from time to time so the result may be certain. Imperfect vaccination gives a false and often fatal sense of security. Reliable virus can be obtained from the National Vaccine Farm, Washington, D. C., or their agents, the Henry Pharmacoe Company, Louisville, Ky.  
In addition it is urgently requested that all boards of health perfect their organization at once, if they have not done so, and take every precaution to prevent the entrance of the disease into their jurisdictions, or, failing in this, be ready to stamp it out by strictly isolating the first case, and vaccinating and re-vaccinating every person exposed to it. All funerals should be strictly private. This Board holds itself ready to give any assistance in its power at any time.  
By order of the Board:  
J. M. MATHEWS, M. D., President.  
J. N. McCORMACK, M. D., Secretary.

### Bladder Troubles.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.  
SAMPLE SENT FREE.  
Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. It is comforting to know that Dr. Kilmer's Swamp-Root fulfills every wish in quickly curing bladder and urinary troubles. It corrects inability to hold urine and sending or stinging pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention CENTRAL RECORD and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

### Loss Satisfactorily Adjusted and Money Promptly Paid.

HYATTSVILLE, KY.  
To the members of the Kentucky Growers Insurance Co., and to whom it may concern:  
Owing to the many inquiries relative to the loss of my dwelling by fire, I wish to say for the benefit of those interested, that the amount due me under my policy in case of a total loss was determined when I made my application and as shown by my policy. Owing to my absence in Virginia my loss was not certified by Mr. G. T. Higginbotham, Chairman of Garrard county board, to the company for payment until Nov. 22, and in less than sixty days thereafter I received the entire amount insured for. For solvency and cheapness every farmer should consider our company before insuring elsewhere.  
Yours truly,  
N. Nor.
